# TAX REVISION MEASURE IS SENT TO CONFERENCE

## New Orleans Limited Is Scene Spectacular Train Robbery

### POUCH CONTAINING HUNDRED THOUSAND LOST RESULT FIGHT

(By Associated Press)  
PAXTON, Ill., Nov. 8.—A mail pouch containing \$100,000 in cash is believed to have been the object of 19 armed and masked bandits who last night held up the New Orleans Limited on the Illinois Central line near here in one of the most spectacular train robberies in the middle west. Ironically enough, the bandits had the sack with the cash, but for some reason dropped it beside the tracks, after setting fire to the cars.

The robbers escaped in two automobiles with two other pouches of registered mail. The bandits used firearms, explosives and torches to accomplish their work. After firing a fusillade into the mail car door when the clerks refused to open it, they blew it in with two charges of dynamite. After slugging and overpowering the clerks, the robbers blew open the safe, scooped out the contents and fled.

(By Associated Press)  
CHICAGO, Nov. 8.—E. A. Gormer, chief postal inspector, at noon today announced the loot obtained by the robbers who held up the Illinois Central train near Paxton will total approximately \$400,000.

### HAPSBURGS WILL BE BARRED FROM HOLDING THRONE

(By Associated Press)  
BUDAPEST, Nov. 8.—It is understood the government has issued a declaration that members of the Hapsburg family cannot be elected to the throne of Hungary. The declaration was made to satisfy the demands of the power, and is to be submitted to the national assembly for ratification as an official interpretation of the act passed by that body Sunday deposing former Emperor Charles and ousting the entire Hapsburg dynasty.

### FRESNO WOMAN IS ACCLAIMED LIVING VENUS

(By Associated Press)  
FRESNO, Cal., Nov. 8.—Gertrude Eggett, aged 25 years, of Fresno, has been acclaimed the most perfectly formed woman in the United States, according to telegraphic advices received from New York today. She was declared the winner over 10,000 entrants in a national contest sponsored by a New York publication on physical culture.

### JAP SMUGGLER FILMS IS HELD ON CONSPIRACY

(By Associated Press)  
SEATTLE, Wash., Nov. 8.—T. Shima, San Francisco exporter, was arrested here by request of San Francisco authorities in connection with an alleged wholesale conspiracy to steal American movie films and smuggle them into Japan, and flood the far eastern markets with copies, the police announced today.

The officers said Shima admitted knowledge of the shipment of films, and he is said to have declared the films were stolen from theatres, express shipments and studio offices, then shipped to San Francisco as "electrical goods" and transferred to Japan by way of Honolulu, Seattle and Shanghai.

### COMMUNISTS OF ITALY IN BATTLE WITH ENEMIES

(By Associated Press)  
LONDON, Nov. 8.—Sharp fighting between the Italian communists and the Fascist, or extreme nationalist, in which most of the combatants were wounded, some seriously, occurred near Novi, Alexandria province, yesterday, says a Central News dispatch from Rome. The communists of Novi heard that the Fascists of Saravalle, a neighboring town, were proceeding in two motor lorries to make a demonstration at Novi, and the communists immediately went out and engaged them in a revolver battle.

### MINERS FIND BORAX NEAR SILVER PEAK

Report was brought to Tonopah today of the discovery of a borax deposit 12 miles this side of Silver Peak on the north end of the Silver Peak range. The extent of the find has not been determined, but it is said the surface development in some places shows 3 inches of borax that comes out resembling cotton balls. The deposit, if it proves of any magnitude, lies in a ledge and will be easily mined. The discovery was made by two men named Brackett and Raphael, recent arrivals from Bishop, California. It is said the vein can be traced for fully a mile.

### LEGION MEN TO HELP INVESTIGATE WATSON

(By Associated Press)  
WASHINGTON, D. C., Nov. 8.—The American Legion was asked by the war department to lend its assistance in obtaining all facts relating to charges by Senator Watson that Georgia soldiers were frequently shot and lanced without court-martial during the war. Secretary Weeks addressed an appeal to Hanford MacNider, commander of the Legion. Senator Watson interjected into the senate debate on the tax bill more telegrams, letters and newspaper articles which he said supported his charges.

### CLIMAX CLOSE IN IRISH PEACE NEGOTIATIONS

LONDON, Nov. 8.—Members of the Ulster cabinet have been summoned to London by their premier to consider proposals made by the British government in connection with the Irish peace negotiations, and Premier Craig is to confer further with Lloyd George Thursday afternoon. These developments, it is announced officially, are deemed here to indicate the approaching climax in the discussion of an Irish settlement. The situation is frankly admitted in official circles to have reached a critical stage.

### NEW DISCOVERY REPORTED FROM CAMP ROYSTON

Another promising mineral find was reported from the new camp of Royston this morning. The ore was uncovered by Emory Arnold, Marvin Arnold, "Sandy" McDonald and Ben Farrington, who secured a lease a few days ago on what is known as the Seventy-six claim, owned by W. H. Royston and associates. On the ground in question a shaft had been sunk to a depth of 20 feet a number of years ago, and in prospecting the north and south drifts extended a short distance from the bottom of the workings it was found that in the roof of the north drift there was exposed a 2-foot vein of 45 ore, while just below the collar of the shaft where the wash was passed there is a body of 40 ore.

Following the above discovery the lessees started work in trenching the vein and for a length of 15 feet there has been exposed a streak of ore varying in width from 6 to 13 inches that shows average assay values of \$45.50 a ton. It is now proposed to lower the 20-foot shaft a considerable distance with a view of determining the persistency of the orebody, and in the event that it continues on its downward course then drifting will start from the 50-foot level, and also the 100-foot level as soon as that point has been reached.

It has been learned by the lessees that when the 20-foot shaft was sunk silver was selling around 50 cents an ounce, and it was probably for that reason the early operators abandoned the property. The present operators control under lease 500 feet of ground on the vein, and purpose exploiting the surface for the full 500 feet, as well as putting the shaft down with all possible speed. Adjacent lessees on the Seventy-six claim are reported as having a splendid showing, and various locations in that immediate vicinity are being prospected on surface with satisfactory results.

The Seventy-six claim lies about 2000 feet south of the workings of Betts and associates on the Golden Eagle claim, where such sensationally high-grade ore is being mined at the present time.

### PETIT JURY CALLED IN DISTRICT COURT

A petit jury will be called in the district court on Saturday, the panel to consist of 75 names that will be drawn by the court and one of the county commissioners. The members will be expected to report for duty on Monday morning, November 21, when the case of John Turkia, charged with violating the state prohibition law, will be called for trial. There are some civil cases that may require the attention of juries, and if they are set down for trial then the new panel of jurors will be used.

### RAILROADS WEST ASK REDUCTION ON WAGES

(By Associated Press)  
CHICAGO, Nov. 8.—Managers of the western group of railroads met here yesterday and decided upon the immediate posting of notices of wage reductions of 10 per cent, according to an announcement today. The roads represented included the Santa Fe, Great Western, Rock Island, Northwestern, Union Pacific, Northern Pacific and Great Northern.

### SHIPMENT HIGH GRADE ARRIVES FROM ROYSTON

Ten tons of sacked ore from the Betts lease on the Golden Eagle claim of the Hudson Mining company at the new camp of Royston arrived at the MacNamara mill this afternoon at 2 o'clock, where it will be treated.

The ore in question is of an unusually high grade and is expected to sell better than \$1000 a ton. It was the rich mineral discovery made on this property that brought Royston into such popular favor. Delay in making the initial shipment was occasioned by reason of awaiting proper arrangements to insure treatment of the ore at a minimum of cost, the charges being found to be excessive in the event that the product was sent to the smelters.

One production on this lease continues steadily, but no longer is the product being sacked.

### SPLENDID ORE ENCOUNTERED ORLEAN SHAFT

Advices by telephone received this afternoon from H. D. King, secretary of the Orleans Hornsilver Mining company, contained the information that the crosscut from the 700 level of the Orlean shaft had penetrated the vein for 15 feet, with ore showing the entire distance. The last 5 feet shows real good ore, Mr. King stated, yet there is no indication of the hanging wall being in sight. People at Goldfield are greatly pleased over the results being attained, and a splendid feeling of optimism prevails in all quarters.

### M. L. BUTLER DIES AT LOS ANGELES

Word has been received here that M. L. Butler, well known in Tonopah, had died recently at Los Angeles. Mr. Butler was an operator at Goldfield and was the owner of the "Three Bs" mine. He was carrying on development at that property when taken ill, and was sent to Los Angeles, but expired shortly after reaching home.

### PERSHING WILL TRUDGE AFOOT TO OBSEQUIES

(By Associated Press)  
WASHINGTON, D. C., Nov. 8.—General Pershing will trudge afoot all the long way from the capitol to Arlington national cemetery on Friday to pay honor to America's unknown soldier. The leader, under whom the unknown hero served in France, declined to serve as grand marshal and ride at the head of the funeral escort. As chief of the American expeditionary forces Pershing regards himself as a mourner at the symbolic funeral.

### S. F. BROKERS TO LOOK OVER NEW DISTRICTS

A. S. Wolberg, well-known San Francisco broker, accompanied by other brokers and a number of friends, who have heard a great deal lately concerning both the Hornsilver and Royston districts, will arrive in Tonopah tomorrow morning. The party will be taken to the various points of interest at the two camps. Hornsilver probably receiving the first visit.

There has been quite a movement regarding Hornsilver properties and deals have been consummated whereby Divide companies will operate in that section. The Goldsmith and Rosetta companies will be the first corporations to become active, and in view of the fact that both are listed on the San Francisco exchange the issues give promise of becoming quite active.

Royston will be given the "once over" by the brokers from the coast, and it need prove no surprise if new developments take place in that camp following their visit.

### CANADA JOINS U. S. OFFICERS SUPPRESS WETS

(By Associated Press)  
WASHINGTON, D. C., Nov. 8.—American prohibition officers and Canadian officials have entered into a "gentlemen's agreement" designed to reduce smuggling of liquor across the border to a minimum. It was announced today at federal prohibition headquarters.

### ORIGINAL KLONDYKE LEASERS SHIPPING

Operations on the original Klondyke mine are progressing satisfactorily through the leasing system, and a fair production is being made. Work is being confined largely above the 100 level, and from a recent shipment of a carload that was made by W. Maupin returns of \$68 were received in settlement. There are two other sets of leases at work, and both are sending forth occasional shipments of better than the average grade ore, the product being consigned largely to the Desert mill of the Tonopah Mining company at Millers.

### MINING MEN PLEASED WITH ROYSTON CAMP

W. E. Edwards, mining engineer of Goldfield, accompanied by W. P. McCarthy, T. J. Flynn and W. P. Saunders, were out to Royston Sunday to look over development which is going forward on the Super Six and other properties in which they are interested.

### TREASURY EXPERTS ENORMOUS AMOUNT WILL BE REALIZED

### 6 MEN KILLED IN BREATHITT COUNTY FIGHT

(By Associated Press)  
JACKSON, Kentucky, Nov. 8.—Six men were killed and five wounded in an election fight shortly after the polls opened today at the Clayhole voting precinct in Breathitt county, about 15 miles from here.

A special train has been sent from Jackson with physicians to attend the wounded.

The story of the affray as it reached here was that Ed Combs, uncle of Combs Diers, defeated Democratic candidate for county judge, was active in support of the Republican nominee. Combs, it was said, entered the polling place and attempted to give orders to the election officers. Relatives, according to the story, remonstrated with him, and out of the argument grew a fight in which pistols were drawn and shooting became general.

### TREASURE HILL AT SILVERTON HITS RICH ORE

While Royston, Hornsilver and Argyle are making considerable noise in a mining way, the camp of Silverton is now giving entirely different evidence. It is being actively manifested in that locality.

News of a most promising mineral find was given out yesterday by Joseph Taggart, who is in charge of development that is being carried forward on the property of the Treasure Hill Nevada Mining company. The big contact vein having been picked up to the vein from the crosscut being driven from the 100 level of the new shaft. Three feet of ore appearing in a tale formation has been passed that shows average values of \$37 a ton in silver, while 5 feet of quartz is showing that carries values of from 15 to 20 ounces silver a ton.

Where this vein was intersected, or picked up, in shaft sinking at the 80-foot point it was found to have a width of 30 feet, and some exceptionally high-grade was encountered on the hanging wall. It is believed it will be found equally as wide on the 100 level, so the full extent of the present discovery will not be known for several days.

### LEGION DANCE WILL ATTRACT BIG CROWD

Liberal support should be given the dance at the Aldome Friday night which is being sponsored by the Elmer J. Bell post, American Legion. All proceeds realized are expended locally for charity, and not one cent is sent away from this district. The committee in charge of this entertainment has left nothing undone to make the evening one of pleasure for those who participate in the entertainment, and coupled with the fact that the best music obtainable has been engaged, an evening of interest is assured.

### JAPANESE ARE UNFIT MIGRATE FROM COUNTRY

(By Associated Press)  
WASHINGTON, D. C., Nov. 8.—The Japanese claim is really not 43,000,000, as declared by the Japanese J. H. H. of the Bank of Japan, as the Japanese government has reduced the figure to 37,000,000. The Japanese government has reduced the figure to 37,000,000. The Japanese government has reduced the figure to 37,000,000.

Treasury experts say the bill in its present form would not approximate \$125,000,000, or \$200,000,000 less than the present law. Even really the experts agree the bill will reduce the national tax toll by about \$150,000,000 a year.

### ANTI-BEER BILL UP ON NOVEMBER 18

(By Associated Press)  
WASHINGTON, D. C., Nov. 8.—Agreement for a vote November 18 on the anti-beer bill was reached formally by the senate today, with immediate prospect of its enactment with a large majority to spare.

### ROBBERS MAKE BANK HAUL MINNEAPOLIS

(By Associated Press)  
MINNEAPOLIS, Minn., Nov. 8.—Three robbers entered the Republic State bank here today, drove officials and patrons into a vault and escaped with \$15,000 cash. They fled in an automobile kept ready by a fourth bandit.

### BUTLER THEATRE

A James Oliver Curwood story of the North Woods

"GOD'S COUNTRY AND THE LAW"

Filled with thrilling adventure and red-blooded action. One of his inimitable tales of primitive men and beautiful women. It is the call of the North—and everybody answers it.

—TOMORROW—

"PENNY OF THE TOP HILL TRAIL"

—AND—

A 2-Reel Comedy
